

YOUR HEALTHCARE IS AT RISK

Doctor, I'd like your medical opinion

Sorry, I may have to give you a political one

Sincerely,

If you want my vote, get rid of Bill 36!

- **Staff shortages** - providers are leaving BC
- **E.R. shutdowns** - no doctors or nurses available
- **Long wait times** - delays can kill patients

Bill 36 will worsen:

My healthcare is at risk.

I just heard about Bill 36: the new Health Professions & Occupation Act. I am very upset! I want my health care providers to practice without interference from politicians.

Dear MLA,

how far is it to AB?

Mommy,

Doctor, this is personal. Are my records private?

No. Government agents may now enter my office without notice & seize your records
