

# What is a **SMART CITY?**

**S**

## **Surveillance**

- Social Credit Scores
- Spying (security cameras)
- Facial recognition

**M**

## **Monitoring**

- Official Community Plan (OCP)
- 24/7 monitored behaviour

**A**

## **Artificial Intelligence (A.I.)**

- 24/7 monitoring of activity
- Replacement of city workers & jobs

**R**

## **Retrofit Homes**

- Expensive for homeowners
- Banning certain energy use

**T**

## **Track & Trace**

- Digital ID not for identification, but to track and trace your activity

**C**

## **Control**

- U.N. takeover of municipalities
- Climate initiatives
- Behaviour change or consequences

**I**

## **Identification (I.D.)**

- Central Bank Digital Currency (CBDC)
- Internet of Things

**T**

## **Transportation Plans**

- Driverless cars
- No gas powered vehicles

**Y**

## **Your Digital Wall**

- Sensors to disable freedom of movement from your neighbourhood

# Smart City technology promises to change our world

## We've got Questions. Do you?

- Was the public consulted on our local *Climate Action Plan* and *Official Community Plan*?
- Who is paying for this?
- What is the 2030 and 2040 Agenda?
- Who is behind the Smart City concept?
- How will homeowners afford to retrofit homes?
- How does this technology affect my health?
- Why is the answer more government control?
- How will this affect local businesses?
- How soon are self-driving cars coming?
- By 2035, no gas-fueled cars will be allowed?
- What are the implications for agriculture?
- Will residents be forced into 15-min zones?
- Will digital ID track & control our purchases?
